Property Description

Penha de França tops one of the seven Lisbon hills, and some of the best views of the city are available from this vantage point as one looks out over the city to the Northeast. Conversely, the Penha de França church's domes appear on Lisbon's horizon.

As a lesser-known area, Penha de França's excellent location, good social facilities and a good public transportation network support quiet yet active lives.

Similar to other areas on the outer layers of Lisbon, this was once farmland and orchards, where many Lisboetas moved to be outside a congested city. Imposing, majestic manor homes were built for noble families and today this area maintains its stately aura, attracting middle and upper class families. Multiple generations of families live here, from young people to adults

The project Barao 176 is located near the majestic Alameda Gardens that faces Lisbon biggest Avenue. It comprises 8 apartments, all 2 bedrooms and totally refurbished with high quality materials.

All units are delivered fully equipped with Bosch appliances, and A/C.

All the units are eligible for the 350k Golden Visa and short-term license.

BUYING COSTS AND FURNITURE INCLUDED.
