Property Description

Land of 84.200 m2 with wide countryside views in the municipality of Óbidos. A study is being developed for tourist accommodation! Due to the excellent landscape setting and its size, this land is great for a tourist project or perhaps for all types of agricultural exploration, such as the establishment of vineyards or orchards. It is bordered by three accesses, the main one of which is tarmacked and with a stream, which will connect to the banks of the Arnoia dam. It has all the infrastructures on site, enjoys a beautiful wide view of a green nature, with the Óbidos Lagoon on the horizon and inserted in a quiet village about 7 minutes from Óbidos and Caldas da Rainha. Energy Rating: Exempt #ref:BL638
