Property Description

If you fancy creating your own dream home, Castro Marim Golfe & Country Club is the perfect place to do it.

You can design a home, tailored to suit your lifestyle, in a location that is unique in the Algarve.

What makes the site so special, is the surrounding nature reserve, unobstructed views and the resort's policy of low density housing.

Choose the view you want - the rolling inland hills of the Alentejo, the distant Atlantic Ocean, the Guadiana River with its attractive bridge dividing Portugal from Spain or the beautiful green golf courses.

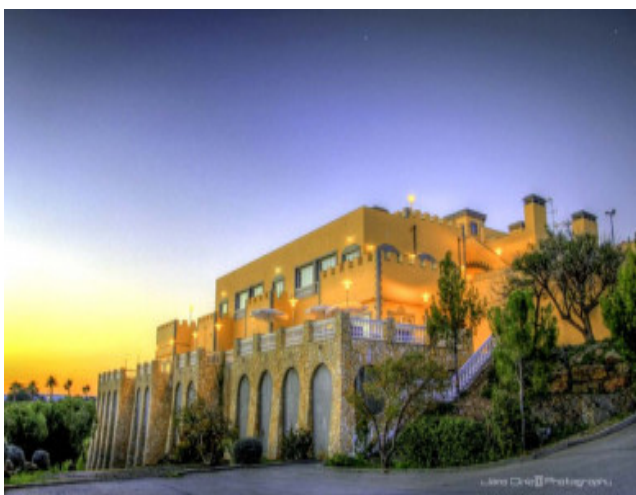

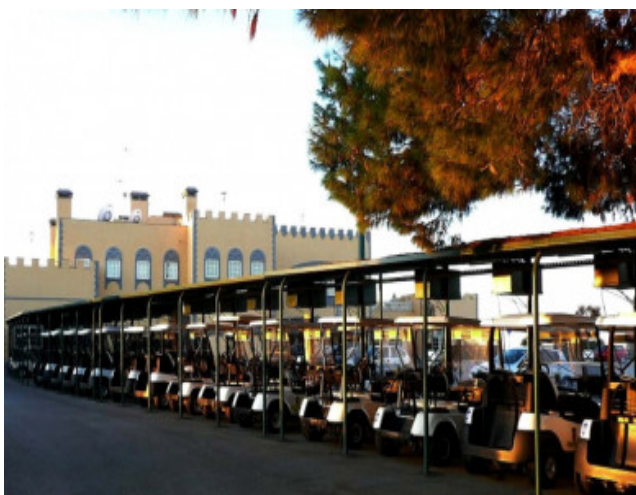

If you choose to go down this DIY - "Do It Yourself" route, the design of the property is entirely up to you - just as long it is in general keeping with the predominant style of Castro Marim, with its medieval castle and Moorish style of chimneys.

The resort offers total flexibility. You can design the property yourself, employ your own architect, or use the Castro Marim Golfe & Country Club planning services. It's up to you.

Imagine a holiday home that's exactly as you want it, with all your own personal touches. That dream is possible, here.

Plots from 2.000 m² to 2.720 m², start at 450.000 €.
