Property Description

Located in the heart of the historical town Sao Bras de Alportel, this property is less than a five-minute walk to centre and less than a minute walk from the local swimming pools. Originally standing as one large villa the property is now under full renovation and has plans to be split into two, three-bedroom properties. As the property is off plan it gives you the ability to personalize the finish to your preference, whether you split the property or decide to keep it as one.

The historical town of Sao Bras De Alportel is in the eastern Algarve Regine, just 20km from faro Airport and 20 minutes' drive from the beach. The town itself has everything you need for day-to-day life. There are three large supermarkets, a market, a high street full of shops and cafes, numerous bars and restaurants and much more. Sao bras also has good schools and plenty of areas for children to play. Another special part of the town is that just five minutes north of Sao Bras you enter an area of beautiful nature with great walking trails through the hills. The forests consist of amazing viewing points, stunning wells with picknick spots and reservoir that are great to cool down in over the summer period.
