# Property Description

High energy efficient villas based on Passive House institute principles in Farrobo- Close to Sao Bras de Alportel.

Villas are currently under construction. Delivery 2024!

3 Bedroom/3 Bathroom built based on the passive house principles using Muroblok technology.

Advantages of this technology:

Superior indoor comfort due to better air quality, internal temperature uniformity and acoustic insulation.  
Energy cost savings as the house consumes 75-95% less energy than a traditional building.

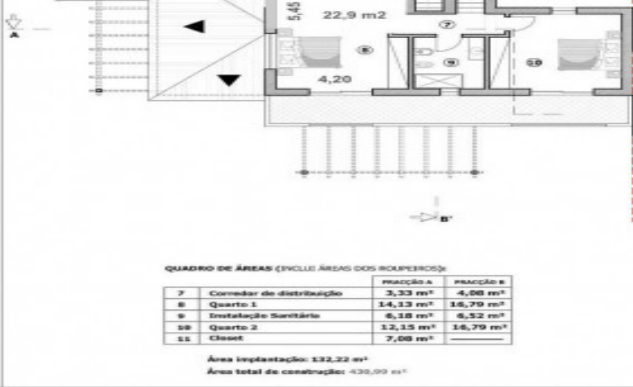

Main House specs:

- Plot size 580 m2
- Fully fitted kitchen
- Pre-installed aircon
- Electric underfloor heating in the bathrooms
- 8x4 pool
- Double flow ventilation with heat recovery
- Double glazed windows
- Closed garage
- Garden

Possibility to choose your internal colours and kitchen design
