Property Description

Amazing 3 bedroom apartment located in the city center

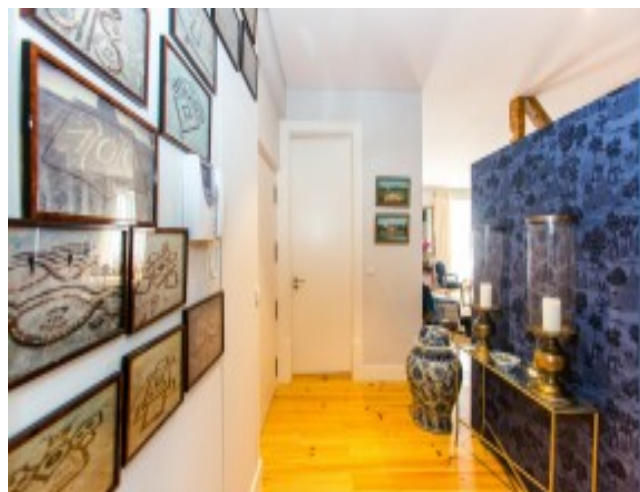

This beautiful apartment was renovated in 2015, keeping its original historic characteristics. This new unit opens into a reception room where we can find the living room and kitchenette with a combined space of around 58 sqm. The living room has views overlooking the city of Lisbon and its beautiful hills, more specifically the downtown area of Baixa. The apartment has three bedrooms with ensuite bathrooms. There is also a social bathroom located between the kitchenette and the third bedroom. The kitchen area is fully equipped with great appliances, also the apartment is set with air conditioning (cooling and heating systems). The building was completely renovated as well and the owners are currently installing an elevator.

Praça da Figueira is one of the most central squares of Lisbon. Here you can find all the connections necessary to move around the city (bus, metro, train). Within a few steps from the apartment you have the stop for the famous tram 28 (tram that connects the Castle to Estrela), just across the street there is a metro station and the central train station of Rossio that will take you to the mystical Sintra.
